## EDUCATION

University School of Automation and Robotics, GGSIP University, Delhi, India	2021-2025
<ul style="list-style-type: none"><li>B.Tech in Automation and Robotics   CGPA: 8.941/10 (Till 3rd sem)</li></ul>	(expected)
St. Johns Academy, Hajipur, Bihar	2019-2020
<ul style="list-style-type: none"><li>AISSE(Class XII)   Percentage: 86.8%</li></ul>	
Rose Public School, Darbhanga, Bihar	2017-2018
<ul style="list-style-type: none"><li>AISSE(Class X)   Percentage: 76%</li></ul>	

## SKILLS

### Technical Skills

C | C++ | Java | Python | Django | OpenCV | HTML5 | CSS | Bootstrap CSS | Javascript | Linux

### Soft Skills

Communication Skills | Leadership | Teamwork

## PROJECTS

- Facial Recognition System:  
The Facial Recognition System successfully recognized and localized faces in real-time images and videos, showcasing a high level of accuracy and responsiveness. The project's successful completion boosted my confidence in tackling complex computer vision challenges and reinforced my passion for pursuing a career in the field of software engineering and artificial intelligence.
- CollegeBrusters web app:  
I designed and developed CollegeBrusters, a dynamic web app that offers real-time access to class schedules, attendance records, and marks. Its intuitive interface empowers students to stay organized and up-to-date, enhancing their academic performance and overall college experience.
